“CRIME PREVENTION”, by formal definition, is the anticipation, recognition and the appraisal of crime risk and the initiation of some action to remove or reduce it. In practical application, crime prevention is a pattern of attitudes and behaviors directed both at reducing the threat of crime and enhancing the sense of safety and security, to positively influence the quality of life in our society, and to help develop environments where crime cannot flourish. The NYS CPC is proud of it’s affiliations with DCJS and NCPC and offers this course as one of its many projects in cooperation with DCJS.
